

## Diagnostic of Plant Diseases

“What is wrong with my plant?” If you hear this question from your customers, this workshop is for you. Join us as we discuss common problems found on landscape plants in our region. We will review the diagnostic skills and the methods to make the best possible assessment. The focus will be on problems caused by diseases and the environment.

**Friday April 16th, 2010**

Plaza Heritage Hotel

405 Victoria Street, Kamloops, BC

9:00am — 4:00pm

Instructor Mario Lanthier
