

Ed Gilman wrote the
book on pruning !

The 3rd edition was published in 2012.

Richly illustrated to help practitioners
improve their skills at pruning of trees.

You cannot miss this event !

*Join us and other tree care specialists
as we hear the leading researcher on pruning of trees.*

*We will discuss pruning of trees, management
of the root system and review recent research.*

*Most of the day will be outdoors
looking at young and mature trees
and discussing their pruning needs.*

This event will be limited to 30 persons.

Pre-registration only.

Lunch will be provided.

Eligible for 6 CEU credits for certified arborists.

About Ed Gilman

Dr. Gilman is based at the University of Florida. He conducts extensive research on important tree care practices such as pruning, irrigation, fertilizer, root pruning to improve root systems and non-traditional containers for nursery production.

He has assembled a unique urban tree teaching program for helping municipalities, arborists, educators, growers and landscapers that implement programs promoting better tree health in cities.

Dr. Gilman is a regular contributor to the ISA (International Society of Arboriculture). He was awarded the Research Award in 2007, the Educators Award in 2003 and the Authors Citation Award in 1999.

He has published more than 96 scientific articles in 30 years in academia and industry.

See his webpage at <http://hort.ufl.edu/people/gillman.shtml> and related research information at <http://hort.ifas.ufl.edu/woody/>.
